

PROJECT PROFILE

Berlin Federal Correctional Facility
Berlin, NH

ISSI job number 2-611
Project type: Prison
Tons of steel: 1439
Owner: DOJ Federal Bureau of Prisons
Architect: Edward Rowse Architects
Structural Engineer: Lemessurier Consultants, Inc.
Contractor: Bell/Heery joint venture
Erector: Contractors Crane Service

ISSI was selected to provide the steel for this 1280 bed medium security federal prison in February, 2008, constructed under a design-build contract. ISSI used 3-D modeling extensively to coordinate details with the precast concrete wall panels and to allow the project's units of measure to be easily translated between metric and imperial units.
