

Isaacson Structural Steel, Inc.

PROJECT PROFILE

MITRE Center
Bedford Campus
Bedford, MA

ISSI job number 2-330
Project type: Mixed use
Tons of steel: 682
Developer: Spaulding and Slye, LLC
Architect: The Stubbins Associates
Structural Engineer: Lemessurier Consultants, Inc.
Contractor: John Moriarty & Associates Inc.
Erector: James F. Stearns Company Inc.

This 100,000 sf building replaces two existing buildings with a new, environmentally-friendly, energy-efficient, building to serve as executive offices, meeting spaces and cafeteria for the not-for-profit MITRE Corporation. Isaacson Structural Steel is working closely with the project team to provide a package that includes the supply and erection of structural steel, metal deck, and two steel pedestrian bridges for the facility.

Steel erection is scheduled for completion in the spring of 2004.
